01 - Introduction

Analyzing Inflation's Impact on Portugal

The study examines how inflation in Portugal affects living costs, wages, housing, and inequality.

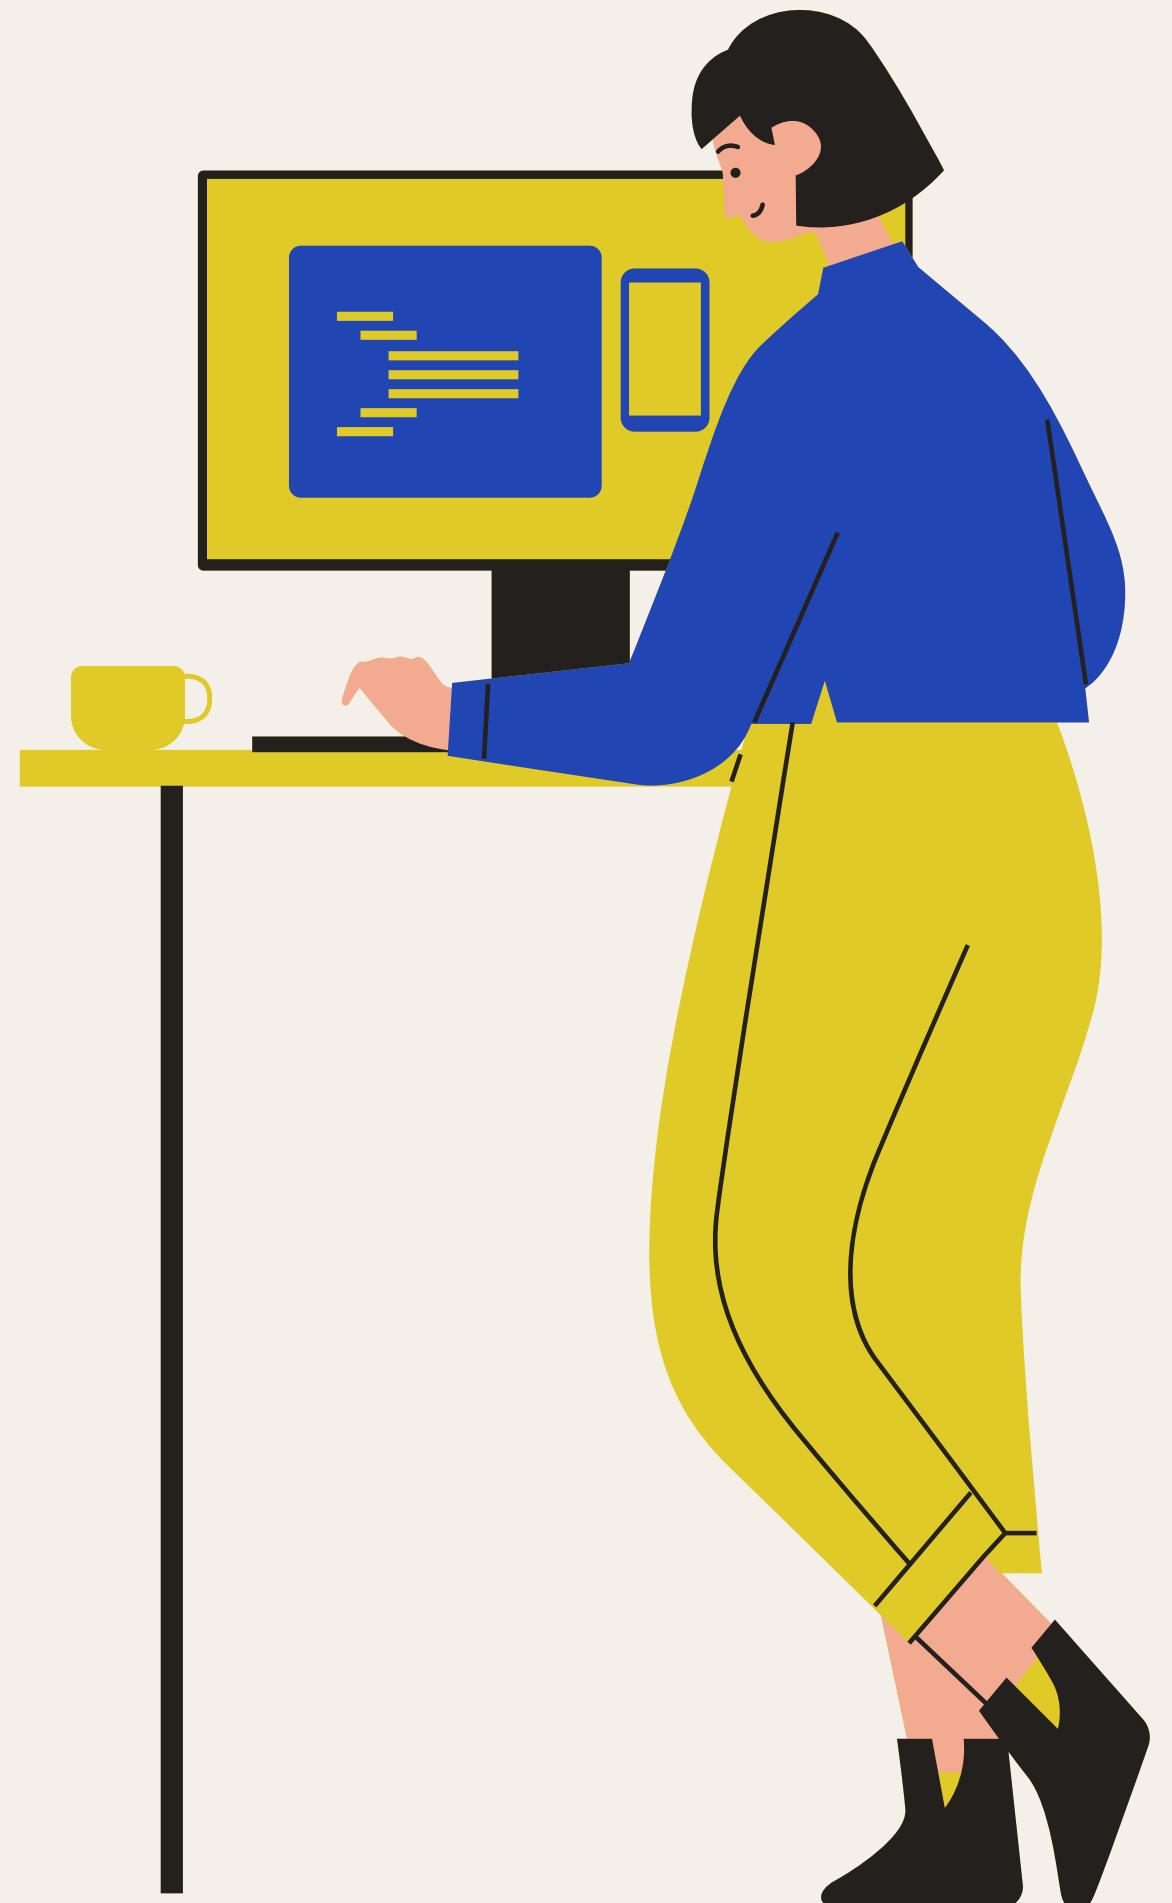

Data

Visualization

02 - Analysis

Source : PorData

- Consumer price index by goods and services (Portugal)
- National minimum wage
- Harmonised Index of Consumer Prices (HICP)
- Income of the poorest 40% of the population (%)
- Inflation rate (%) total and core (Portugal)

03 - Users and Context

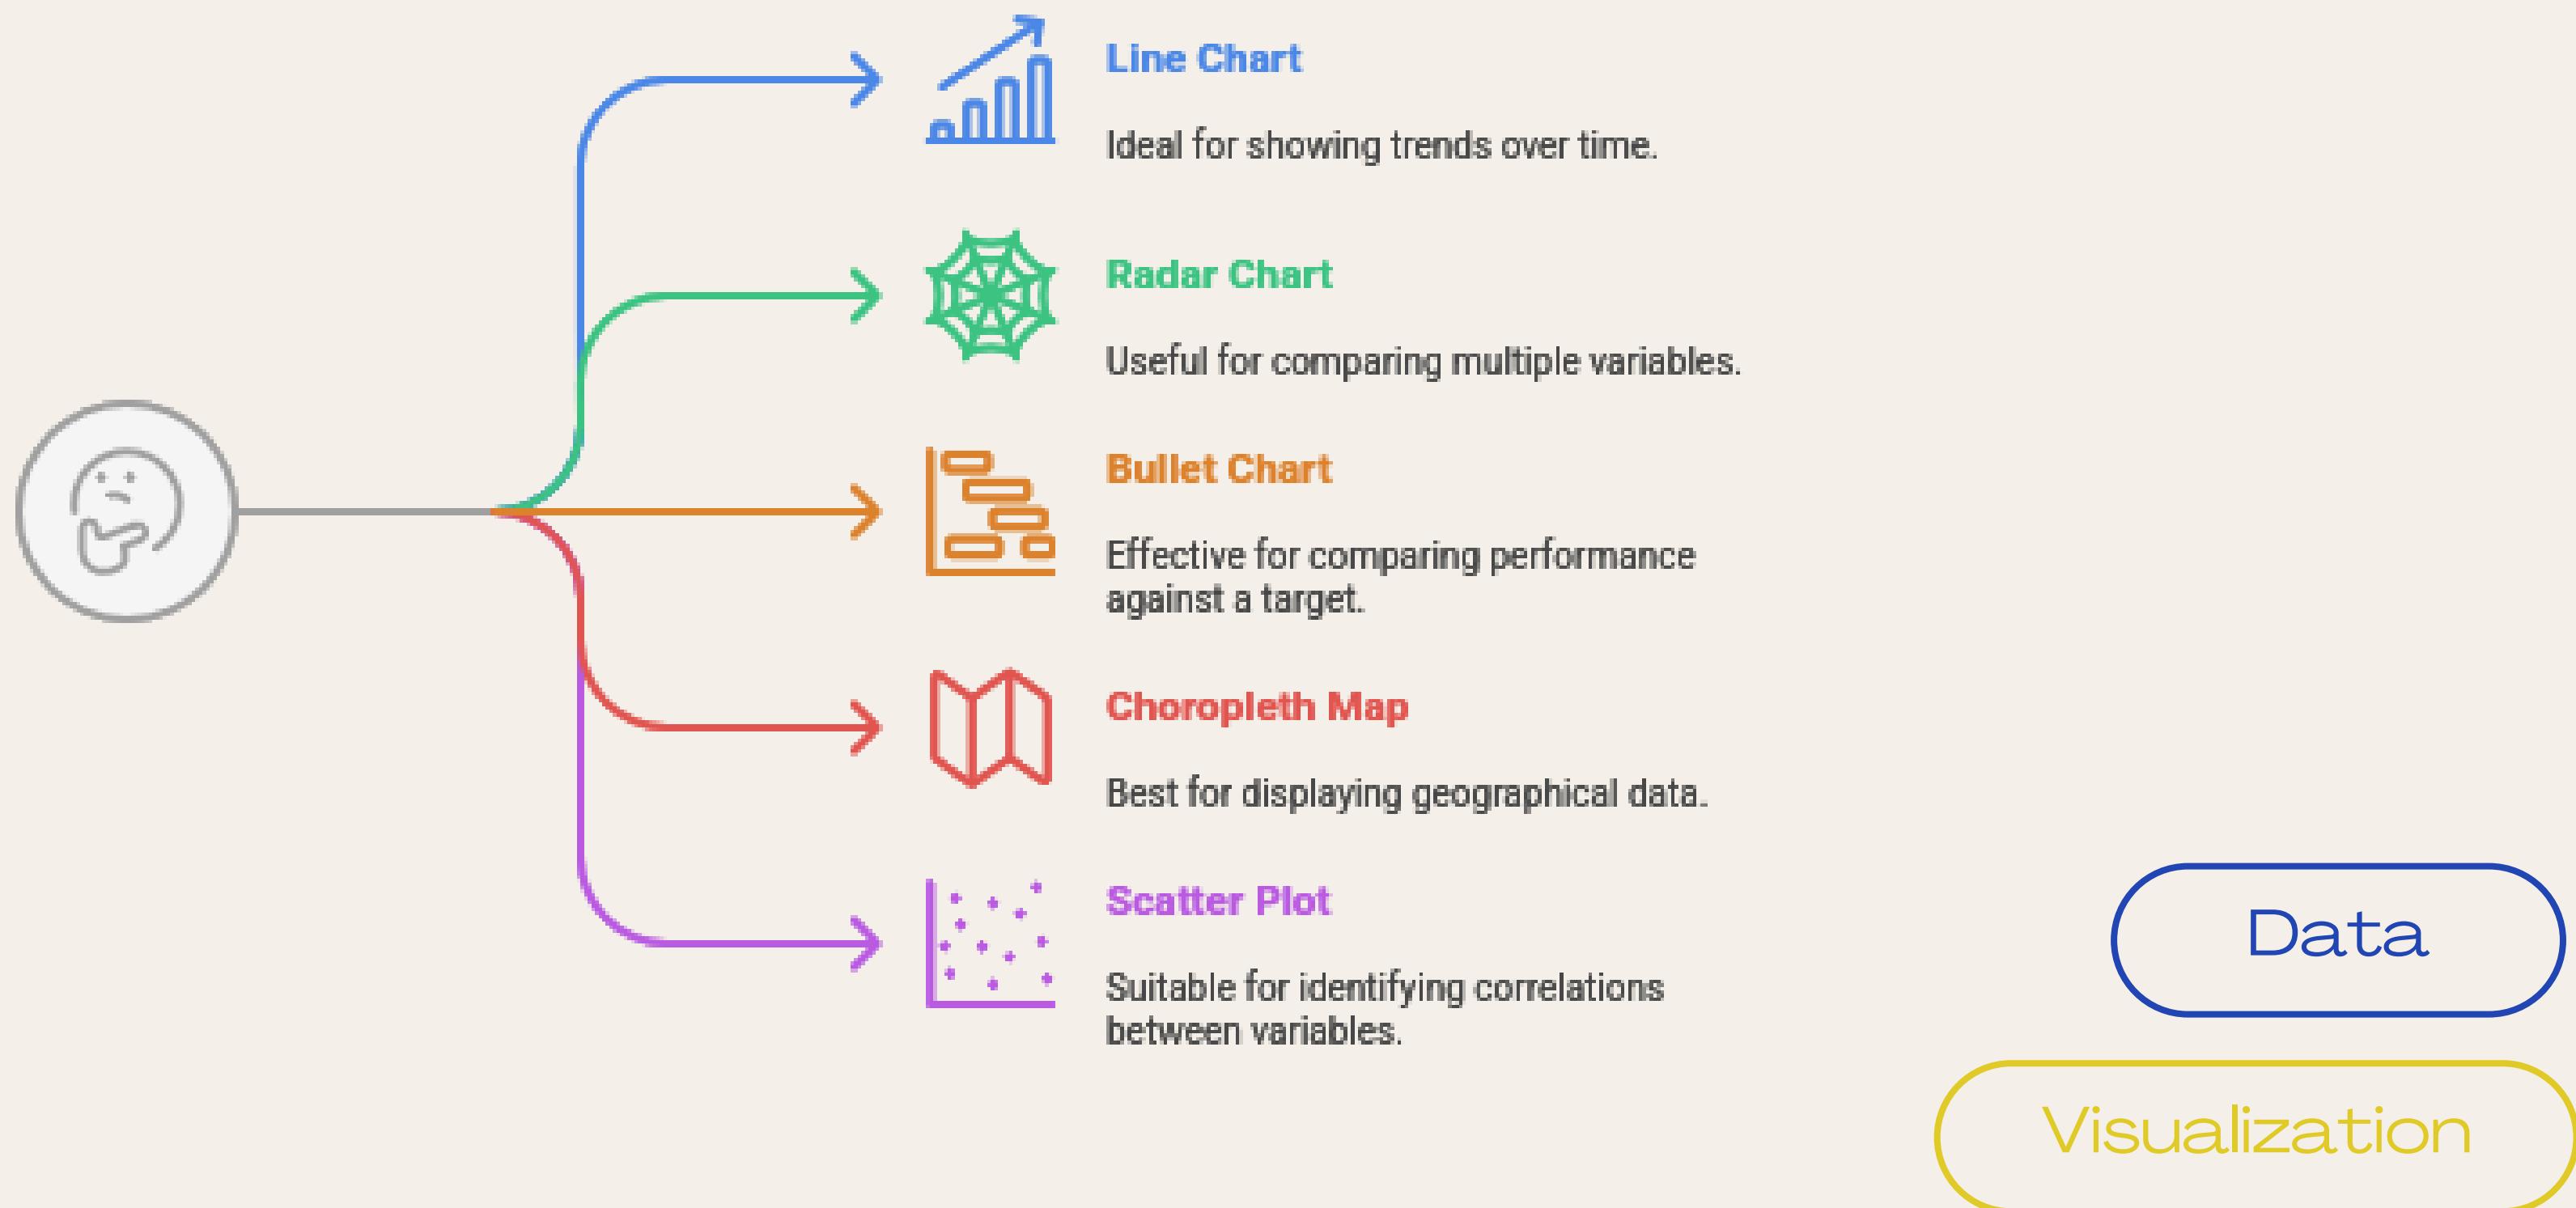

An interactive online tool to explore and communicate inflation and income data for education, analysis, and decision-making.

04 - Main Questions

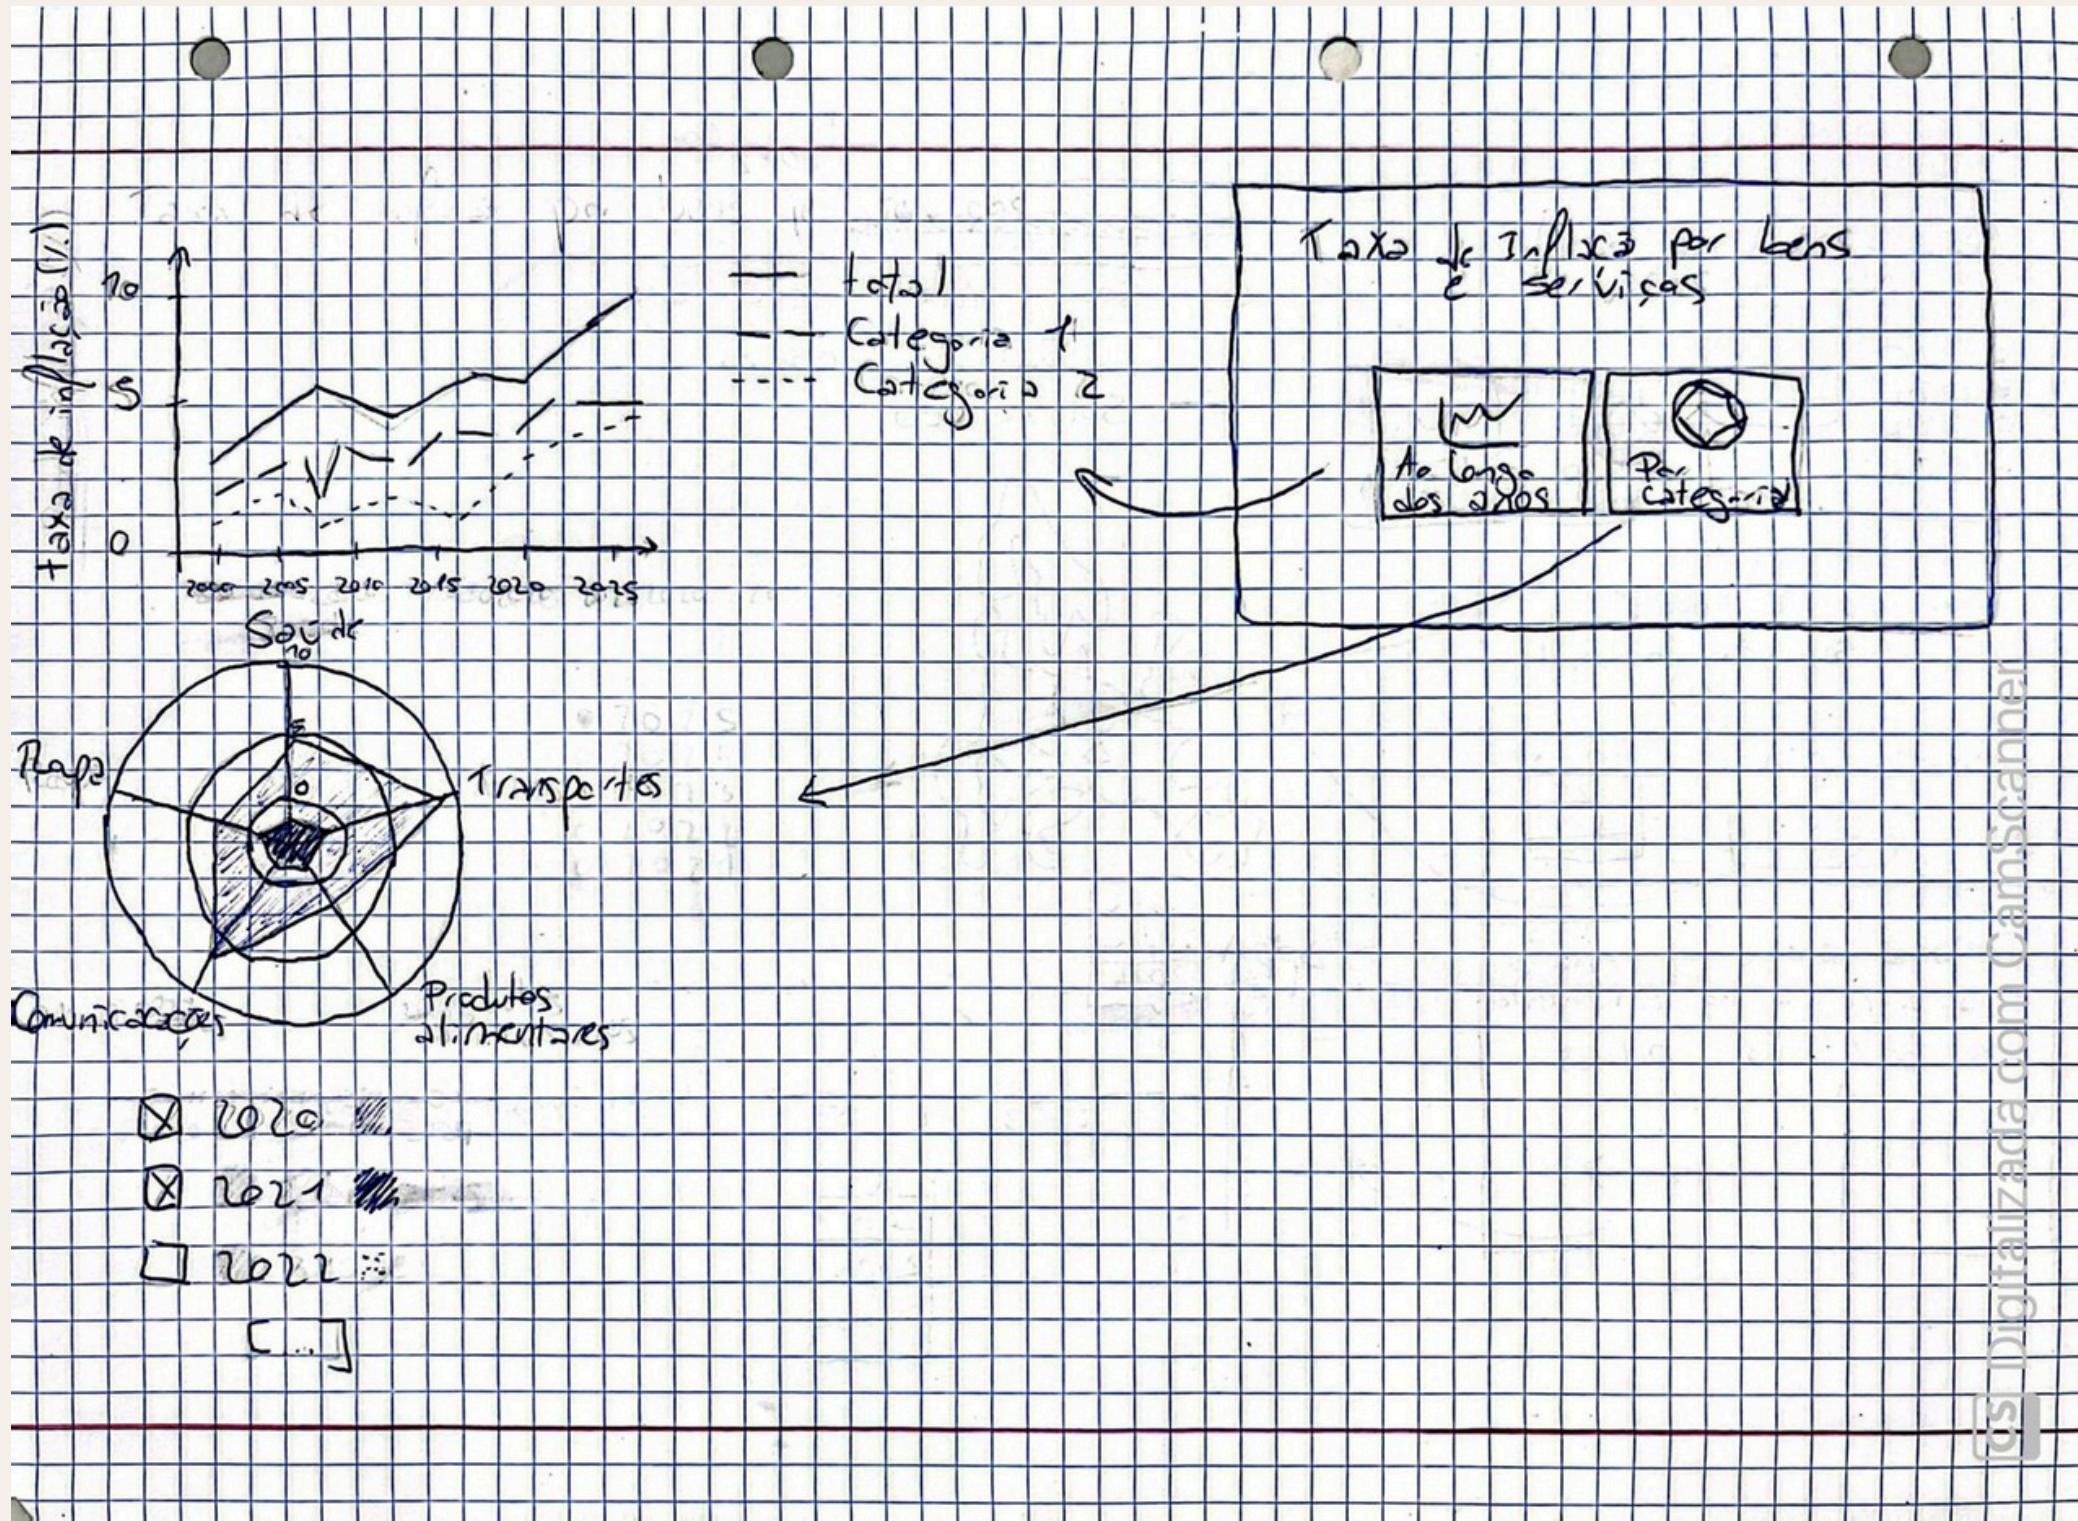

- How much did inflation increase overall and by category?
- Did wages keep up with prices?
- How does Portugal compare to the EU?
- Did inflation affect income distribution and inequality?
- Did the poorest 40% lose or gain share of income?
